PROFILE

I am from Köln, Germany where I work as a Senior Full-stack Developer. With many years of experience in C#, Typescript and JavaScript, my focus is on APIs, Microservices, Mobile Development and Web Development. In my spare time, I enjoy Cycling, Gardening, Music, and Scuba Diving. For my future career development, I am only be interested to work in the following industries: Healthcare, Utilities, Telecommunication and Training & Development.

MEDICLINIC SOFTWARE GERMANY GMBH

OCT 2021 - PRESENT (2 YEARS & 5 MONTHS)

- FULL STACK DEVELOPER (BERLIN, GERMANY)

I played a pivotal role in the development and enhancement of their software solutions. Subsequently, in 2021, I was rehired to spearhead crucial projects, including the development of a mobile application using Flutter and the creation of an API from scratch using .NET Core. Despite leaving my role in Hungary due to personal reasons and relocating to Germany, I maintained a strong connection with the company and worked from their Berlin office. Through these experiences, I have demonstrated my proficiency in software development and my commitment to driving innovation within the healthcare technology sector.

PUBLICARE GMBH

AUG 2021 - OCT 2021 (3 MONTHS)

- FULL STACK DEVELOPER (COLOGNE, GERMANY)

I actively engaged in refining their system and optimizing codebase integrity. Despite the brief duration, my contributions were significant as I identified areas for improvement and implemented strategies to enhance system efficiency. Recognizing that the role wasn't a perfect fit, I made the decision to end my tenure early, ensuring a mutually beneficial outcome for both parties. Through my efforts, I facilitated advancements in system functionality and code cleanliness, leaving a positive impact on the company's technological infrastructure.

AMPLICADE GMBH

SEP 2019 - AUG 2021 (2 YEARS)

- SENIOR FULL STACK DEVELOPER (COLOGNE, GERMANY)

Blockchain development for automated contract and payment management based on IoT data consumption and processing, including front and back-end development.

OUTSOURCED:

- KARSTADT (ESSEN, GERMANY)

Pioneered the development of FotoFlow Application using Xamarin with Prism Framework. This helps to produce photos of the products to be posted in the Web Store. After the successful development of the app, I worked with the back-end team on fastest Product Information System. It is a cloud-native architecture that is highly scalable. Also lead programmer of the sub-project called Content

Integration Layer. Its purpose is data enrichment and collection of product information from different aggregators and suppliers.

- RYTMEX GMBH (COLOGNE, GERMANY)

Developed Logistics App using Xamarin. This app is used by riders to deliver goods from one place to another. Also developed the Web Portal of the app using Angular

MEDICLINIC SOFTWARE

AUG 2015 - SEP 2019 (4 YEARS & 1 MONTH)

- SENIOR FULL STACK DEVELOPER EUROPE (BUDAPEST, HUNGARY)

Helped developed a Web-based medical booking and claims management system. Developed Mobile Application Development of the Booking System and also do Website Administrator and Data Integration

- JUNIOR FULL STACK DEVELOPER ASIA PACIFIC (MANILA, PHILIPPINES)

Code and test programming for in-house software programs. I also debug code for existing programs based on immediate need. Conduct end-user training upon completion of software and develops databases, programs, and procedures necessary to integrate and/or implement the system. I also help migrate data from clients' legacy systems.

PHILIPPINE LONG DISTANCE TELEPHONE COMPANY

JAN 2013 - AUG 2015 (4 YEARS & 4 MONTHS)

- BUSINESS INFORMATION ANALYST

Provide business reports to senior management to streamline business processes and develop computer programs to automate in-house reporting.

- QUALITY ASSURANCE ANALYST

Drafted quality assurance reports for the attention of middle management and synthesize findings, identify potential quality issues. Also, analyse raw data to find user and system errors.
